Hi Cathy,

I've forwarded your email to Jim Polek of our Enforcement Office, cc'ed here. After today I'm out of the office until next Thursday, but please feel free to touch base with Jim next Monday, and he'll be able to talk with you about potential EPA enforcement assistance. His phone number is (415) 972-3185.

Hope you enjoy your long weekend,
Amelia

Subject: Need to discuss Eureka pretreatment violations with you

Hi Amelia:

Danny O'Connell did his PT inspection at Eureka this week. During his inspection at Pacific Seafood, he found that pipes that are subjected to saltwater have corroded and he found direct discharge to Humboldt Bay under their building. He will get me his report soon with photos. He also instructed Eureka that they need to address this. Due to a Board Meeting project that I am under the gun on, I haven't been able to call the City. I plan to call them next week to see how they are addressing this. Seems like they need to immediate cease and desist discharge. Can I request EPA enforcement assistance on something like this?

I am leaving now to take my elderly dad to an appointment and won't be back until Monday. Do you have time to talk on Monday?

Thanks
Cathy
